## FINANCIAL RISK ASSSESSMENT

## **GOODWORTH CLATFORD PARISH COUNCIL**

## **Notes**

"The greatest risk facing a local authority is not being able to deliver the activity or services expected of the Council."

Risk assessment is a systematic general examination of working conditions, workplace activities and environmental factors that will enable the employer to identify any and all potential risks inherent in the place or practices. Based on a recorded assessment the employer should then take all practical and necessary steps to reduce or eliminate the risks, insofar as is practically possible; ensuring that all employees are made aware of the results of the risk assessment.

This document has been produced to enable the Parish Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise them. In conducting this exercise, the following plan was followed:

- Identify the areas to be reviewed
- Identify what the risk may be
- Evaluate the management and control of the risk and record all findings
- Review, assess and revise if required

The co-option process begins with an advert, acceptance of applications, consideration of applicants and co-option vote at a Council meeting then appointment. At the Precept meeting Council receives a budget update report, including actual position and projected position to end the year and indicative figures or costings obtained by the Clerk. With this information the Council maps out the required monies for standing costs and projects for the following year and applies specific figures to budget headings, the total of which is resolved to be the precept amount to be requested from Test Valley Borough Council. This figure is submitted by the Clerk in writing to TVBC.	Existing procedure adequate
